

### **Day surgeries**

Most Day Surgeries are carried out under general anesthesia. As a result the patient is not allowed to drive after surgery. Therefore someone must come to the facility and sign a medical form stating that they are responsible for picking the patient up and delivery she/he home safely.

Types of Surgery/Procedure

**\*Eye**

**\*Foot**

**\*Colonoscopy**

**\*Cosmetic/Reconstructive**

**\*Dental**

**\*Electro Convulsive Treatment (E.C.T)**

Often times the patient will also need someone to assist them when they get home. We can provide insured and bonded certified nursing assistant or home health aides.

**Dialysis Treatments:** Tell us When and Where and we'll be there.
